### WHO WE ARE

Franklin, Massachusetts based Eagle Stainless Tube & Fabrication, Inc. has been serving customers in medical, aerospace and high tech manufacturing since 1982. With a record of on-time delivery, fair pricing, product quality and highly skilled employees dedicated to continuous improvement and training, Eagle has earned its reputation as a supplier of choice of off-the-shelf stainless steel products and fabricated stainless steel components. With Eagle as an ISO 9001, ISO 13485 certification and Six Sigma initiative driven manufacturing plant, you can be assured that every member of our staff is concerned with the quality of every product at every step of its journey through our plant.

### MAJOR MARKETS

- Medical
- Aerospace
- High tech manufacturing

### SERVICES OFFERED

Eagle specializes in Stainless Steel, Aluminum, High Nickel Alloy and Titanium Components

- Stainless steel tubing shipped from extensive inventory (Tubing, Bar Stock, Hollow Bar, Pipe, Flanges, Fittings, Custom Sizes and Shapes)
- Precision cut-to-length tubing
- Custom fabricated components
- Custom shaped and sized tubing
- Square and rectangular tubing
- Bending, Cutting, CNC Machining, Laser Welding and Cutting, Grinding, Assembly, and more

Eagle's expertise with stainless steel tubing gives them the ability to help you design the product that will fit your project.

Complex designs need more than just stainless steel custom tubing. Secondary operations such as Cutting to precision lengths, CNC and EDM machining, laser welding, bending, and precision grinding can transform a simple tube into just the part you need for your design.

At Eagle, we welcome the opportunity to share our expertise in developing product concepts and helping you solve your engineering problems. With decades of experience in the metals industry, you can count on Eagle as a resource for designing and fabricating your metal products.
